

ENVIRONMENTAL POLICY STATEMENT

Evans Piling Limited are a stockholder and distributor of steel sheet piling products and do not carry out any manufacturing of products at their premises, Therefore do not have a full Environmental Policy Document but comply fully with the following:

- 1. The Company is committed to complying with all relevant Environmental Legislation as far as is reasonably practicable.**
- 2. The Company shall provide all such information, training and supervision that is needed to comply with these legislations as far as is reasonably practicable.**
- 3. It is the duty of the Managing Director of the Company to ensure that the Company complies with these legislations as far as is reasonably practicable.**
- 4. We shall endeavour to cut steel sheet piles and profiles with a mechanical saw when-ever practicably possible to reduce the effects of C02 emissions from using burning gases.**
- 5. We ensure that when-ever possible, all piles we purchase are delivered to our works without pitching holes. This allows the exact requirements of the customer to be satisfied and avoids un-necessary burning of additional holes which will reduce the effects of C02 emissions arising from using burning gases.**
- 6. Any returned steel sheet piles will be washed / cleaned with re-cycled water.**
- 7. Any trimmed ends from steel sheet piles will be collected, stored and sent away as scrap for re-cycling back into the steel sheet pile market.**
- 8. We endeavour to utilise back loads with our transport at all times to avoid un-necessary journeys with wagons carrying no pay load.**
- 9. This policy statement will be reviewed annually and where necessary updated to ensure all changes in legislation that are applicable are complied with.**

Signed: Managing Director
