

## Connector LV0n

### Application

Omega corner connector for Larssen sheet piles

### Properties

Steel grade: S355J2

Standard lengths: 11.8 m, 14 m, 18 m

Steel thickness: 8 mm

Weight: 13.3 kg/m

Max. tensile strength: ~600 kN/m

Connector is **not suitable for single driving**. Please insert the connector before driving into the sheet pile interlock, tack it with welds and drive it together with the sheet pile (EN12063).
